

## Web solutions for small business owners

The Internet has proved a powerful equalizer for small businesses. But entrepreneurs can't just build any website these days - they have to build great ones that truly snag viewers and turn them into paying customers.

**Easy content management** - Simple for non-technical users to add or edit content, update images, and manage the critical data that makes your company go.

**Get more choice** - Choose your best corporate fit from hundreds of high-quality web design concepts or let us completely customize your look and feel.

**Best-in-class web standards** - Built with Search Engines in mind, all designs provide effective keyword optimization so your website comes up on top every time.

**Astonishing web designs** - Only the latest web trends are used to create beautiful, elegant, and memorable business websites.

**Dynamic experiences** - Powerful XHTML, Javascript, and AJAX applets to impress your customers and increase lead conversion, user retention, and loyalty.

**Hundreds of add-ons** - Scalable framework with countless extensions including photo and multimedia, e-commerce, forums, chat, calendars, RSS, e-mail newsletters, surveys, reporting, subscriptions & more!

**Establish credibility and a strong local presence for your business with a complete turnkey site.**

**All packages come with everything you need plus Kiinga's Fanatical Customer Support for an entire year.**
